EXECUTIVE SUMMARY

Selenium Automation Tester with over 3 years of experience in developing robust test automation frameworks using Java, Selenium WebDriver, Cucumber, and RestAssured. Automated testing for 5+ web applications in the Capital Markets domain, ensuring optimized performance and reliability.

PROFESSIONAL EXPERIENCE

Capgemini (Associate Consultant)

Sep 2022 – Present

Automation Tester - API & UI

- Conducted manual exploratory and regression testing for financial modules, including **IPO** and **NEAPS**, ensuring functional accuracy.
- Automated UI test cases using **Selenium WebDriver, Java, and Cucumber (BDD)**, increasing test coverage and reducing execution time by **30%**.
- Performed manual **API testing with Postman** and systematized API scenarios using **REST Assured**, enhancing accuracy and efficiency.
- Developed an end-to-end automation framework using the **ADAPT framework** for API testing, reducing manual effort by **40%**.
- Created detailed test cases, test scenarios, and impact assessments based on **BRDs/FSDs** and project documentation.
- Managed defect tracking and retesting using **ALM Octane**, collaborating with Test Leads to resolve blockers promptly.
- Maintained **Traceability Matrices** to align test activities with business requirements and acceptance criteria.
- Collaborated with cross-functional teams (**Developers, Business Analysts, Infrastructure**) to enhance testing processes and support **Agile** practices.
- Reduced regression cycle time by **50%** through combined **API and UI** test automation.

Projects

Third Party API to Fetch JSON Data, Java Full Stack

ems-repo

- Integrated third-party JSON data fetching to populate and sync dynamic content.
- Developed a user-friendly UI for Create, Read, Update, and Delete (CRUD) operations on database entries.
- Ensured seamless interaction between frontend and backend using RESTful APIs.
- Tools and Technologies: **Java, Spring Boot, Hibernate Search, H2 Database, React.js, HTML, CSS, Swagger (API documentation), Mockito (unit testing)**

Education

Dr. B. R. Ambedkar National Institute of Technology Jalandhar, BTech in Civil Engineering

July 2018 – May 2022

- GPA: 7.53

SKILLS

Automation & Testing Tools: Selenium WebDriver, TestNG, Cucumber (BDD), REST Assured, Postman, Software Testing Life Cycle (STLC), Spring Boot

Programming & CS Fundamentals: Java, Data Structures, Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS)

API Testing & Integration: REST Assured, Postman, JSON, XML, HTTP Methods, Status Codes, API Schema

Version Control & Platforms: Git, GitHub, Jenkins (CI/CD Basics), AWS (Fundamentals), Oracle DB
