PROFESSIONAL EXPERIENCE

Senior Software Developer

Sep 2022 – Present

Capgemini India Pvt Ltd

Pune, MH, India

- Incident Resolution: Proficiently analyze and diagnose application incidents, swiftly identifying root causes through meticulous code debugging and investigation.
- Cross-Functional Collaboration: Successfully collaborate with both onshore and offshore teams based in India and the US to ensure cohesive teamwork and effective issue resolution.
- Technical Expertise: Possess a solid grasp of programming languages, and tools. Leverage technical expertise to quickly assess and address issues, ensuring smooth application functionality in alignment with business objectives.

EDUCATION

National Institute Of Technology

Jalandhar, Punjab

B.Tech in Civil Engineering-75.3%

Aug. 2018 – May 2022

D.N.Y. College

Madhubani, Bihar

Physics, Chemistry, Maths-74.0%

July. 2014 – May 2016

J.N. High School

Babubarhi, Madhubani, Bihar

Mathematics-71.6%

July. 2013– May 2014

TECHNICAL SKILLS

Programming Languages: Java

Development: Spring Framework, Spring Boot, Rest APIs , JPA Hibernate, Postman

Databases: MySQL, PostgreSQL

PROJECT

Flight Management System (Online Flight Booking) | *React.js, Spring Boot, Rest APIs, Hibernate*

- Flight management system is a web-based application which gives user and admin access according to their roles.

- Functionalities for different UIs

Customer Interface:

User can register/login, view/edit personal details and book the flights while.

Admin Interface:

Admin can register/login, view customer list, add/update/delete customer details, airports, flights view bookings.

Prediction of Concrete Strength Detection

- A mini project based on machine learning using Python-NumpyPandas
- The model will help to Predict the strength of concrete by input the values of water, cement, flyash, aggregate, admixture. -Here, data-set is collected from.
- Kaggle(an open source), Linear Regression, Random Forest Regression, Lasso Regression.
- Score of models and chosen the model which best score(88.49)

EXPERIENCE

- Founded a Construction Startup(Maithili Construction)
- Organiser at TechNiti(Technical Festival), NIT Silchar 2019
- Social awareness rally for water conservation in Madhubani, Bihar, 2019

ACHIEVEMENT

- Solved More than 400 coding problems on different coding platform
- Runner up at BridgeIt , TachNiti , NIT Jalandhar 2019
