EXECUTIVE SUMMARY

Java Full Stack Developer with over 3 years of experience developing scalable web applications using Java, Spring Boot, React.js and Apache Kafka. Delivered 10+ applications with optimized performance and reliability. Proficient in CI/CD pipelines, MySQL, AWS, Agile methodologies, and writing clean code, ensuring efficient project delivery.

Education

Dr. B. R. Ambedkar NIT Jalandhar, BTech in Civil Engineering

July 2016 – May 2022

- GPA: 7.53

PROFESSIONAL EXPERIENCE

Capgemini (Senior Software Engineer)

Sep 2022 – Present

Java React Developer

- Developed a synthetic data generator for XML files used in regulatory artifacts, leading to a 70% reduction in manual effort .
- Built user-friendly UIs for report generation using React.js, improving team productivity by 50% and ensuring 100% cross-browser compatibility.
- Provided development and support for applications in the Capital Markets domain, including implementing 15+ report pages and developing 10+ custom API integrations to enhance data querying and visualization efficiency.
- Demonstrated strong full stack development skills using Java, Spring Boot, React.js, and SQL, with a focus on automation, performance optimization (30% faster load times), and intuitive user experience.

Projects

Flight Management System, Java Full stack Web development with React

[github.com/name/repo](#)

Flight management system is a web-based application which gives user and admin access according to their roles.

- User can register/login, view/edit personal details and book the flights while
- Admin can register/login, view customer list, add/update/delete customer details, airports, flights and view bookings.
- Implemented backend using **Spring Boot, Spring Security, Hibernate and PostgreSQL**.
- Implemented frontend using **React,HTML, CSS, Bootstrap**.

Third Party API to Fetch JSON Data,Java Full Stack

[github.com/name/repo](#)

- Integrated third-party JSON data fetching to populate and sync dynamic content.
- Developed a user-friendly UI for Create, Read, Update, and Delete (CRUD) operations on database entries.
- Ensured seamless interaction between frontend and backend using RESTful APIs.
- Tools and Technologies: **Java, Spring Boot, Hibernate Search, H2 Database, React.js, HTML, CSS, Swagger (API documentation), Mockito (unit testing)**

SKILLS

FRONT-END DEVELOPMENT | React.js, Bootstrap, HTML5, CSS3, JavaScript

BACK-END DEVELOPMENT | Java, Spring Boot, Hibernate, JPA, JDBC, Maven, Postman

CS FUNDAMENTALS | Data Structures, Algorithms, DBMS, OOP, Computer Networks

MISCELLANEOUS | AWS(Fundamentals) , PostgreSQL, GIT, GitHub, CI/CD Pipelines, Microservices
